COMPANY INTRODUCTION STATEMENT

Groundwork's/Civil Engineering Sub-Contracts/ Personnel and Labour Supply:

I am writing to introduce our company to you and to request that you consider Safe Construction Ltd for inclusion on your list of select sub-contractors.

Ours is a newly formed civil engineering contracting company, whose directors have thirty years experience in all aspects of concrete structures, groundworks and civil engineering. The company also specialises in

1. DELTADRAIN basement waterproofing installation and basement construction.
2. Hording installation and site set up.
3. Professional personnel and labour/trades suppliers at very competitive rates.

Our operatives are fully skilled and competent. Every supervisor and foreman is fully conversant with the current Health & Safety legislation requirements and it is our company policy that these requirements are implemented on all our sites.

We would welcome the opportunity to add your company to our list of valued clients. Should you have any ground-works, civil engineering subcontracts, personnel/labour supply requirements or any of the above specialised contracts available at the moment, or at any time in the future, we would welcome the opportunity to tender our most competitive quotation.

We hope you find this letter of interest and look forward to hearing from you in due course

Yours faithfully

(For and on behalf of SAFE Construction Ltd.)
